

INSTRUCTION MANUAL

LITTLE DEVIANTS IN BIG TROUBLE

Chased across the galaxy by an angry gang of robots known as the Botz, the Little Deviants (a mischievous race of alien creatures) have found their way to a planet inhabited by Whomans. But their landing was less than perfect and now their spaceship is a twisted pile of metal. The Botz have recruited an army of zombies to hunt down and destroy the Little Deviants... and it's up to you to help them fix up their spacecraft and escape to safety in 30 manic adventures.

Follow the on-screen instructions for more details about how to play this game. The information in this manual was correct at the time of publication, but some minor changes may have been made late in this game's development.

MEET THE DEVIANTS

Goopher

Goopher Deviants are hooked on adrenaline, always looking for something fun to do. They love being at the centre of attention and don't like it when the other Little Deviants steal the spotlight.

Blobber

Blobber Deviants are cute and inquisitive and always eager to help out. They have a unique talent for absorbing bombs, which always comes in handy when the Botz are mounting their latest attack.

Frostal

Frostal Deviants love to be in charge and are always trying to prove that they know best. They seem to get annoyed when the other Little Deviants get out of control, but secretly they enjoy getting into trouble.

Pyrudd

Pyrudd Deviants are emotional hotheads who try their best to be gentle and fit in with the other Little Deviants. But their tendency to set everything on fire frustrates them and leads to angry outbursts.

Nucleor

Nucleor Deviants are jittery and unpredictable little creatures who mean no harm but often misunderstand the world around them.

The Botz

The evil Botz have forced the Little Deviants to crash-land on the Whoman world. They're nasty and mean and they're your sworn enemies. Help the Little Deviants to avoid them at all costs!

Use your PlayStation®Vita system in loads of clever ways

Get hands-on with your PlayStation®Vita system and use it to save the Little Deviants from harm. Touch it, tap it or tilt it... you can even sing into it.

LOOK OUT FOR SPECIAL ITEMS

Restores a Deviant's health.

Increases your time limit.

Adds extra points to your score.

GET SET FOR SOME MAYHEM

Complete a level with enough points to earn a bronze, silver or gold ranking and you'll unlock a new adventure to play. There are 30 mini-games in total to discover: here's a little taster of just a few of them...

Rolling Pastures

Use the rear touch pad to roll your Deviant around the landscape in search of a special key. But be careful: if you collide with an enemy, your Deviant will lose some health. Roll towards the exit when you've found the hidden key.

Botz Invasion

Use the PlayStation®Vita system's motion sensor to track down the attacking Botz and blast them out of the sky. If all of the Deviants get destroyed or abducted, it's game over.

Smashing Tune

Hum or whistle a musical note and try to break the glasses and bottles that are launched at your Deviant. Be careful not to destroy any special items like hearts or stars.
